Schedule #1—General Information					
County-district number or vendor ID: 220920	Amendment # (for amendments only):				
Part 3: Schedules Required for New or Amended Applications					

An X in the "New" column indicates a required schedule that must be submitted as part of any new application. The applicant must mark the "New" checkbox for each additional schedule submitted to complete the application. For amended applications, the applicant must mark the "Amended" checkbox for each schedule being submitted as part of the amendment.

Schedule	Schedule Name	Application Type	
#	Schedule Name	New	Amended
1	General Information		
2	Required Attachments and Provisions and Assurances		
4	Request for Amendment	N/A	
5	Program Executive Summary		
6	Program Budget Summary		
7	Payroll Costs (6100)	See	
8	Professional and Contracted Services (6200)	Important	
9	Supplies and Materials (6300)	Note For	
10	Other Operating Costs (6400)	Competitive	
11	Capital Outlay (6600)	Grants*	
12	Demographics and Participants to Be Served with Grant Funds		
13	Needs Assessment		
14	Management Plan

^{*}IMPORTANT NOTE FOR COMPETITIVE GRANTS: Schedules #7, #8, #9, #10 and #11 are required schedules if any dollar amount is entered for the corresponding class/object code on Schedule #6—Program Budget Summary. For example, if any dollar amount is budgeted for class/object code 6100 on Schedule #6—Program Budget Summary, then Schedule #7—Payroll Costs (6100) is required. If it is either blank or missing from the application, the application will be disqualified.

Schedule #2—Required Attachments and Provisions and Assurances					
County-district number or vendor ID: 220920	Amendment # (for amendments only):				
Part 1: Required Attachments					

The following table lists the fiscal-related and program-related documents that are required to be submitted with the application (attached to the back of each copy, as an appendix).

#	Applicant Type	Name of Required Fiscal-Related Attachment
No fi	scal-related attachments are re	equired for this grant.
#	Name of Required Program-Related Attachment	Description of Required Program-Related Attachment
No p	rogram-related attachments ar	e required for this grant.
Part	2: Acceptance and Compliar	ice

By marking an X in each of the boxes below, the authorized official who signs Schedule #1—General Information certifies his or her acceptance of and compliance with all of the following guidelines, provisions, and assurances.

Note that provisions and assurances specific to this program are listed separately, in Part 3 of this schedule, and

require a separate certification.

X	Acceptance and Compliance
Х	I certify my acceptance of and compliance with the General and Fiscal Guidelines.
Х	I certify my acceptance of and compliance with the program guidelines for this grant.
Х	I certify my acceptance of and compliance with all General Provisions and Assurances requirements.
Х	I certify that I am not debarred or suspended. I also certify my acceptance of and compliance with all Debarment and Suspension Certification requirements.

Schedule #2—Required Attachments and Provisions and Assurances				
County-district number or vendor ID: 220920	Amendment # (for amendments only):			
Part 3: Program-Specific Provisions and Assurances				

X I certify my acceptance of and compliance with all program-specific provisions and assurances listed below.

	resulty my acceptance of and compliance with all program-specific provisions and assurances listed below.
#	Provision/Assurance
1.	The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates, State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this grant will be supplementary to existing services and activities and will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
2.	The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights and Privacy Act (FERPA) from general release to the public.
3.	The applicant provides assurances that they will continue to meet all Statutory Requirements as outlined in their 2017–2018 Perkins Formula Grant incorporated by reference.
4.	The applicant assures that its ability is to meet the 20% match requirement.
5.	Applicants applying for Focus Area 1, 2, or 3 provide assurance that the curriculum they develop will be appropriately aligned to marketable skills in the identified high-demand occupations. It may include industry recognized credentialing as part of the degree plan.
6.	Applicants applying for Focus Area 1, 2, or 3 provide assurance that the development and implementation of industry experiences, including mentorship programs, internships, externships, and/or apprenticeship, will expose students to applied learning and real-world work activities in the identified high-demand occupation(s).
7.	Applicants applying for Focus Area 1, 2, or 3 provide assurance that, within 90 days of the grant start, awarded applicants will submit a Memorandum of Understanding (MOU) detailing the relationship between the dual credit partner, the LEA, and business and industry partner(s).

Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

Students will have the opportunity to engage with industry professionals on WSISD's industry advisory committee and work with the most innovative, up-to-date equipment. Additionally, internships are available at Lockheed Martin. However, separate internship articulation agreements are underway, due to the proximity of our campus to Lockheed Martin. Our Aerospace Engineering program will give students industry access immediately. Further, Lockheed Martin has has committed to supplement student's post-secondary education through a number of university engineering schools and their assembly facility in San Antonio. This opportunity also comes with job placement upon graduation. Students will have increased opportunities to acquire knowledge, skills, and abilities in an engineering program that will provide a pathway to identified occupations that are both high demand and high wage (STEM).

Career Cluster 3- Agricultural Science

WSISD is in its 3rd year of offering agricultural science. We have a growing program from animals, to metal technologies, to heavy machine repair and operation (Ag Power). Due to our proximity to a leader in the Ag Power industry, we are able to offer internships to our students from Holt/Cat. Further, we are one of very few districts that offer an Ag Power pathway, due to the substantial cost of the program. Students are taken a Juniors and Seniors to Holt/Cat for opportunities to work their way into a full time career. Dual Credit articulation through ag science are available through partnership with the University of Texas Permian Basin and Terrant County College. This field is ranked 6th for the top 25 occupations making above Texas median wage of \$34,550 in the North Texas Region and 13th in the state of Texas.

This funding will enhance the Ag Science career cluster and provide access to the latest technology, labor market and career information, and innovative practices for WSISD students. Currently, we have placed two interns with Holt/Cat and look forward to placing more in the future. However, grant funds are needed to supplement the Ag Science program in order to properly train students for industry standards.

WSISD completed the erection of a 13,500 sq. ft. animal barn for student to house animal projects. Naturally, grant funds are needed to properly outfit the barn with industry standard equipment to house and care for animal projects. Further, in order to expand opportunities that are both high demand and high wage, students will need access to industry standard equipment for Ag Mechanics in order to obtain NCCER industry certification to become certified welders.

	Enrollment in Unmanned	1.	100% increase in enrollment in UAS (currently have 1 cohort)
4.	Aircraft Systems (UAS)	2.	UAS enrollees receiving industry standard certifications
		3.	UAS enrollees receiving dual credit opportunities
		1.	
5.		2.	
- •		3.	

Part 2: Data Collection and Problem Correction. Describe the processes for collecting data that are included in the evaluation design, including program-level data such as program activities and the number of participants served, and student-level academic data, including achievement results and attendance data. How are problems with project delivery to be identified and corrected throughout the project? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

WSISD will collect enrollment, certification and dual credit participation data. This data will be compared with PBMAS indicator data and disaggregated by special population throughout each program served. From there, we will determine needs and formulate plans to address problems in achievement data in congruence with our district and campus improvement plan. Finally, program improvement plan will be put in place to address shortcomings and supplement strengths.

Amendment # (for amendments only):

TEA Program Requirement 1: Explain how the project identified the high-demand occupations and their related programs of study in partnership with the local workforce development board. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Applicants applying for Focus Areas 1, 2, or 3 must address this question.

This project will fill an emerging need in the area of operation of unmanned aircrafts. Currently, Amazon is BETA testing package delivery in the Dallas/Fort Worth area. Additionally, private companies are using unmanned aircraft systems to evaluate damage to heavy machinery (personal communication, Duane Frye-McKinney Drilling, August 2016). Finally, the US Coast guard is using unmanned aircrafts to perform search and rescue operations.

This project will fill an emerging need in Texas in the area of agricultural science. Currently, the occupations associated with this career cluster rank 6th among demand occupations in Texas. The Ag Science career cluster offers a higher number of choices to students than other career cluster. The opportunities for students are endless. Currently, we have partnered with Holt/Cat to offer internship opportunities to student. Additionally, we have dual credit available through UT Permian Basin. Finally, we have several industry representative on out industry advisory board to help develop and grow Ag Science for our students.

This project will fill an emerging need in Texas in the area of Engineering. Currently, the occupations associated with this career cluster rank 11th among demand occupations in the North Texas area. It is expected, that in the next 8-10 years, Lockheed Martin will hire 6000-8000 engineers for their Fort Worth facility, which sits one mile from our high school campus (personal communication, Norm Robbins, Feb 4, 2017). Further, industry advisors, including but not limited to, Lockheed Martin have committed to offering competitive internship opportunities to our students. Dual credit articulation agreement are being developed at this time in conjustion with institutions of higher education and our industry advisory board.
